His Holiness Maharishi Mahesh Yogi

Founder of Maharishi AyurVeda
Founder of Maharishi College of Perfect Health

“We have a complete chance of creating a disease-free society. You are the first generation of the custodians of health in the world who are launching upon a programme to create a disease-free society through the prevention programmes – purifying programmes – of Ayurveda, and the theme of Ayurveda which is the most valuable thing, which is expressed in one Sutra of the Yogic aspect of Ayurveda: *Heyam duḥkham anāgatam* (Yog-Sutra 2.16) – ‘Avert the danger that has not yet come,’ that we know in one word: prevention. So, for prevention it is necessary to maintain the holistic awareness.

Be the lamp at the door: inside lighted, outside lighted. That is the self-referral awareness, which is one with unity, one with diversity at the same time.”

Maharishi Aroma Therapy Consultant Training Course

From Department Head Nadine Thomas

40 attendees from 16 countries enjoyed an in-depth introduction to Maharishi Aroma Therapy at MERU, led by Nadine Thomas and Dr. Malte Hozzel, foremost expert in the knowledge of the plants, essential oils and their therapeutic properties.

Maharishi Aroma Therapy Webinar Report

MAT Department Head Nadine Thomas reports that all the 5 MAT Webinars presented to date by Claudette Maurin have been well-attended, and that consultants appreciate the thorough and practical review of the knowledge received during the training course.

Nadine Thomas explains:

"During each webinar we review the knowledge that the consultants received in the MAT training course. The consultants find this coaching to be very helpful in preparing them to give their own consultations."

"We review in great detail the process for selecting the essential oils according to the predominant dosha and the health concerns of the client. Each time we cover one case study in depth, and review the fundamental steps of a consultation, how to apply the Essential Oils, safety and dilution, etc. We also add a specific theme such as skin or weight problems, etc."

"Step by step we practice together what we learned during the course. Then consultants feel totally confident to select the Essential Oils for themselves, their family and friends and then for public consultations."

"We also review how to present Maharishi Aroma Therapy so that all consultants feel confident explaining the benefits of Maharishi Aroma Therapy to everyone in daily life."

Maharishi Light Therapy with Gems Report (MLG)

From Department Heads Joachim and Iris Roller

In June 2007 Maharishi told Joachim Roller that the treatment would be very successful and should be spread worldwide. To date we have trained around 200 Maharishi Light Therapy with Gems practitioners from over 50 countries at Maharishi's Peace Palace at MERU, Netherlands.

Together these practitioners have offered over 13,000 MLG treatments all over the world:

- **Eva Bergmann:** Over **4,000 MLG** treatments in Skandinavia and USA
- **Nakata:** Around **3,200 MLG** treatments in Japan
- **Ekaterina:** Around **3,000** in Ukraine and Russia
- **Ayala Melzer:** Around **2,500** in USA
- **Igor and Nadya** have reached the magical number of **1,008** in Ukraine

We will publish regular experience reports with visuals and photos to demonstrate the effectiveness of Maharishi Light Therapy with Gems.

This will be an opportunity for those working on Maharishi's assignment to document and promote their enlightening experiences of their Maharishi TM-Sidhi and Maharishi Light Therapy with Gems techniques in connection with the illuminating experiences of our cosmic body.

To learn more about Maharishi's explanation of Maharishi Light Therapy with Gems and the updated advancements of this technique, we invite MLG consultants to attend Phase II, the advanced level of Maharishi Light Therapy with Gems from 31 October to 21 November, 2016. [Enroll here](#)

Maharishi Panchakarma Training in Skelmersdale England

The International Maharishi Panchakarma Training Course Block 1 in Skelmersdale 11-15 July is fully booked.

The Men's International Maharishi Marma Massage (Kalari Marma Uzicil) Training Course is held from 14-23 July.

This powerful technique involves dynamic body work aimed at fortifying Prana. Maharishi Marma Massage does not focus on the individual Marma points, but primarily on that which connects all these Marmas: the flow of the inner Intelligence of the body, also called Prana, which governs all the innumerable parts of the body and connects the individual physiology with the cosmic physiology.

All MPK training courses are international courses and technicians active in an existing MAV centre from any country may attend.

The courses will be conducted by Kathryn Nolan (for ladies) and Randol Oberson (for men), who are also responsible for the training of technicians in Maharishi Panchakarma worldwide. Both have trained, managed and treated in many centres, many countries and projects including THMD and MERU.

They are both long-term governors and MAV practitioners who have been involved in Maharishi AyurVeda from 1985 when this knowledge was first made available in the West.

Kathryn and Randol are the remaining representatives of the 1994 MAV trainer's workshop where Maharishi Mahesh Yogi personally supervised the creation of the consciousness based style of treatment that is distinctive to MAV centres.

If you have questions on MPK training in Skelmersdale, Kathryn Nolan and Randol Oberson will be very happy to hear from you **via email:**

Scientific Research

Latest Scientific Study on TM in the Journal

Military Medicine

Shows Benefits for PTSD

Vernon A. Barnes, PhD; Andrea Monto, LMSW; Jennifer J. Williams; John L. Rigg, MD; 2016

This controlled study confirmed the result of four other studies that have found beneficial effects of TM on Post Traumatic Stress Disorder. It documented a significant reduction in the need for psychiatric drugs among Military Service Members with Anxiety and PTSD who practiced Transcendental Meditation

The study found a 20.5% improvement in severity of psychological symptoms among those practicing TM after six months, compared to the control group.

The need for psychiatric drugs was studied among soldiers having Post Traumatic Stress Disorder (PTSD) practicing TM, compared to non-meditators.

The sample included 74 military Service Members with documented PTSD or anxiety disorder not otherwise specified (ADNOS), 37 that practiced TM and 37 that did not.

Result after one month of TM:

83.7% of the TM group stabilized, decreased, or ceased medications and 10.8% increased medication dosage; 59.4% of controls showed stabilizations, decreases, or cessations; and 40.5% increased medications.

A similar pattern was observed after two, three and six months.

Notably, there was a 20.5% difference between groups in severity of psychological symptoms after six months, that is, the control group experienced an increase in symptom severity compared with the group practicing TM.

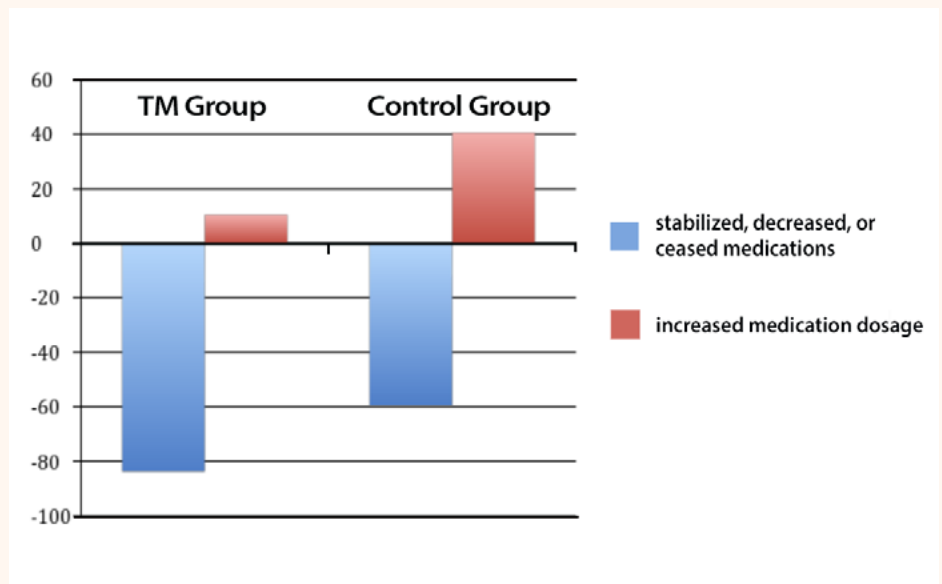

The authors concluded "These findings provide insight into the benefits of TM as a viable treatment modality in military treatment facilities for reducing PTSD and ADNOS psychological symptoms and associated medication use."

Source:

Vernon A. Barnes, PhD; Andrea Monto, LMSW; Jennifer J. Williams; John L. Rigg, MD – Impact of Transcendental Meditation on Psychotropic Medication Use Among Active Duty Military Service Members With Anxiety and PTSD. MILITARY MEDICINE, 181, 1:56, 2016.

Summary with quotes from the abstract by Jaan Suurkula, M.D.

This controlled study confirms the result of four other studies that have found beneficial effects of TM on PTSD. Although the medication level is a fairly good indicator of the condition of the patient, it does not make justice to the real improvement caused by TM. Several studies indicate that TM does not just have a symptomatic effect, appearing as reduced need for medication, but as opposed to drugs, the technique also normalizes the psychology by eliminating the mental 'scars', which bring about the need for medication.
