Dear Maharishi AyurVeda Professional and Friends,

We are delighted to share with you a preview of the 2nd International Ayurveda Congress to be held 1-2 April in London, UK.

This promises to be a dynamic and engaging conference – one of the largest outside of India – with over 80 leaders in Ayurveda from around the world sharing their discoveries, insights, and practical tips with all of us.

No matter which area of Maharishi AyurVeda is your specialty, you will find a wealth of information and inspiration at our Congress.

After the very full program of the Congress itself, you are invited to a special Global Maharishi AyurVeda Summit on Monday, 3 April 2017 to plan for the world-wide expansion of the programmes of Maharishi AyurVeda.

This gathering of all Maharishi AyurVeda professionals, supporters and practitioners of the Transcendental Meditation and TM-Sidhi programme will be chaired by the patron of the Congress and the International Maharishi AyurVeda Foundation, Dr Tony Nader, MD, PhD, MARR.

Lastly, we have added a special Ayurveda for Everyone Programme with two full days of Public Lectures on Ayurveda on 1-2 April for anyone to gain a deeper understanding of Ayurveda's unique approach and its effectiveness in solving a wide range of health problems.

Please do not miss out on the immersive experience of attending the 2nd International Ayurveda Congress.

You can register here – and as an IMAVF member you receive a substantial reduction in the Congress fee.

Looking forward to seeing you at the Congress in April!

Warmly,

Dr. Rainer Picha
IMAVF Chairman of the Board
Second International Ayurveda Congress

All India Ayurvedic Congress, New Delhi; International Academy of Ayurved, Pune and International Maharishi AyurVeda Foundation, The Netherlands will welcome all health professionals, Ayurvedic scholars, and researchers from India and around the world at this Second International Ayurveda Congress to be held in London 1-2 April 2017.

Internationally renowned scholars will be keynote speakers at the Congress and will present scientifically verified solutions to showcase the effectiveness of Ayurveda towards fulfilling the human pursuit of health, happiness and long life.

The Minister of AYUSH of the Government of India, His Excellency, Minister Shripad Yesso Naik, will attend the Congress along with a high level delegation from the Ministry.

Presidents of the Congress

The presidents of this International Ayurveda Congress are: the President of All India Ayurvedic Congress, Padma Bhushan Vaidya Shri Devendra Triguna; the Chairman of the International Academy of Ayurved, Pune, Professor Shri Subhash Ranade, who is a leading academician and the author of 127 books on Ayurveda and Yoga; and Dr. Rainer Picha, who is a senior consultant in cardiology from Austria and Chairman of the International Maharishi AyurVeda Foundation.

Padma Bhushan Vaidya Shri Devendra Triguna, India – President of All India Ayurvedic Congress and a recipient of Government of India’s civilian awards ‘Padma Shri’ and ‘Padma Bhushan’ for distinguished service of a high order for his contribution in the field of Ayurveda.

Prof. Dr. Subhash Ranade, India – One of the foremost experts on Ayurveda. He is a leading academician and physician in the field of Ayurveda. Chairman International Academy of Ayurveda, Pune, India.

Dr. med. Rainer Picha, Austria – is a senior consultant in cardiology from Austria. In 1996 he shifted his focus from a full-time position as Assistant Director at the Department of Cardiology of the State Hospital in Graz, Austria, to become a researcher at Maharishi Vedic University in Vlodrop.

Tony Nader, MD, PhD

Dr. Nader received his M.D. degree from the American University of Beirut. His Ph.D. is in the area of Brain and Cognitive Science from the Massachusetts Institute of Technology (MIT), and he completed post-doctoral work as a Clinical and Research Fellow in Neurology at the Massachusetts General Hospital, Harvard Medical School.
The Congress

This Congress is one of the largest Ayurveda congresses in Europe, with participation from leading experts from India, Europe and USA.

During our first International Ayurveda Congress, held in The Netherlands on 11th and 12th April 2015, five hundred delegates, including eighty Ayurvedic experts from India, participated in the Congress. Following on the success of the 2015 event, we are again expecting an international gathering of over 500 experts in the field.

This conference is the joint effort of three organizations: the International Maharishi AyurVeda Foundation, from The Netherlands; the All India Ayurveda Congress, New Delhi; and the International Academy of Ayurved, Pune.

This Congress has its foundation in Maharishi Mahesh Yogi’s World Plan for Perfect Health through the principles and practice of Ayurvedic Science. This conference also took inspiration from Prime Minister Shri Narendra Modi’s encouragement of Ayurvedic experts and academicians in India and worldwide to spread the highest quality of Ayurvedic knowledge, practice and products world-wide. Prime Minister Modi’s continued support for strengthening and including Ayurveda in the ties of India with other countries has been appreciated by all.

Among the goals of these Congresses is to bring to light Ayurveda as a prevention-oriented perfect health care system for the world, a system that is authentic and reliable. This will strengthen the reputation of India in Europe and the world through the authentic implementation of traditional time-tested Vedic knowledge, products and practice.

Since Ayurveda is prevention-oriented, as well as holistic and curative, it is capable of leading the world towards creating an increasingly disease-free society. It has the potential to make a huge contribution to the health care systems in Europe and the world. Since Ayurveda is cost effective and easy to implement, it is capable of bringing about self-sufficiency in health care in every nation.

Programme

Saturday 1 April:
Morning – Plenary Session:
Inauguration and opening ceremony
with Guests of honour and prominent
speakers
Afternoon – Parallel Sessions:
1. Brain Health
2. Cardiovascular disorders
3. Youthfulness and Longevity; Genetics and Epigenetics

Plenary Session:
Prominent speakers, Panel discussion and Q&A, Felicitations

Evening – Cultural Event
– after dinner – MERU Concert –
Finest Indian Classical Musicians

Sunday 2 April:
Morning – Plenary Session:
Opening remarks, prominent speakers
Afternoon – Parallel Sessions:
1. Skin Health
2. Women’s Health
3. Nutrition and Digestion; Lifestyle

Plenary Session: Panel discussion and Q&A; Felicitations; Summary and concluding remarks
Evening – after dinner:
Thames River Evening Cruise
The Second International Ayurveda Congress
Main Speakers and Themes

Tony Nader, MD, PhD, MARR
Consciousness – The Foundation of Health, Happiness, and Long Life – Ph.D. in Brain and Cognitive Science, Massachusetts Institute of Technology (MIT); post-doctoral work as a Clinical and Research Fellow in Neurology at the Massachusetts General Hospital, Harvard Medical School.

Padmabhusan Vaidya Devendra Triguna, India
President of All India Ayurvedic Congress and recipient of “Padma Shree” & “Padma Bhushan” award for his contribution to Ayurveda.

Prof. Padma Bhushan Shri B. M. Hegde, India
How might the Benefits of Ayurveda be combined with Modern Medicine?
MD, PhD, FRCP (Lond, Edin, Glasg, & Dublin), FACC, FAMS. Padma Bhushan Awardee 2010; Cardiologist & Former Vice Chancellor, Manipal University.

Prof. Padma Shri Ram Harsh Singh, India
Shifting Paradigms of Ayurvedic Education in Global Perspective
Distinguished Professor, Banaras Hindu University (BHU), Formerly Professor-Head & Dean, Faculty of Ayurveda, BHU and Vice Chancellor, Rajasthan Ayurved University, Jodhpur.

Ashtavaidya E. T. Divakaran Mooss, India
Chairman and Chief Physician at Ashtavaidyan Thaikkattu Mooss, Aatma Ayurvedic Hospital, Thrissur,Kerala,India, Chief Consulting Physician at Keralaaya Ayurveda Samajam Shoranur, and at PNNM Ayurveda Medical College.

Prof. Gunvant Yeola, M.D. (Ayu), Ph.D, India
(Kayachikitsa) Ayurved for cognition and behavioural disorders.
Professor and Head, Department of Kayachikitsa, Dr. D. Y. Patil College of Ayurved and Research Center, Pune, Director - International Academy of Ayurved (IAA).

Professor Gerard Bodeker, Univeristy of Oxford, UK
Ayurvedic dietary approaches in combating NCDs

Dr. Keith Wallace, USA
Microbiom and Ayurveda
Founding President, Trustee, Maharishi University of Management, Co-Dean College of Perfect Health, Professor and Chairman, Department of Physiology and Health, and author of three books.

John Fagan, Ph.D. Cornell Univ., USA
Consciousness Based Health Care: modulating gene expression to achieve system-wide balance and integration through the Ayurvedic modality, Transcendental Meditation
International Director for Food Purity, Safety and Security, Professor of Molecular Biology, Maharishi University of Management, USA, Exec. Dir. Earth Open Source, USA & EU.

Dr. med. Rainer Picha, Austria
A Disease-Free Society—Is it Possible?
Rainer Picha, MD, senior consultant in cardiology from Austria; former Assistant Director, Department of Cardiology of the State Hospital in Graz, Austria; researcher at Maharishi Vedic University in Vlodrop, NL 1996.

Prof. Dr. Subhash Ranade, India
Ayurveda Propagation Worldwide
One of the fore-most experts on Ayurveda. He is leading academician and physician in the field of Ayurveda. Chairman Inter-national Academy of Ayurved, Pune, India.

Dr. med. Walter Mölk, Austria
Maharishi AyurVeda, the Basis for Integrative Medicine

Robert H. Schneider, M.D., F.A.C.C., USA
Holistic Approach to Mind-Body Anti-Aging: Based on Maharishi AyurVeda
Director, Institute for Natural Medicine and Pre-vention Dean, Maharishi College of Perfect Health Maharishi University of Management, USA.

Prof. Anant Darshan Shankar, India
Structure and logic underlying the Ayurvedic knowledge system
Vice-Chancellor, TransDisciplinary University (TDU), Bangalore.

Asmita Wele, M.D. (Ayurveda pharmacology), India
Ayurveda Bio-Inorganicals: Promising New Genre of Medicine
Ayurveda Chair Debrecen, Hungary;Professor at Bharati Vidyapeeth Deemed University, College of Ayurveda, Pune.

Dr Bhushan Patwardhan, PhD, FAMS, India
Integrative Approaches For The Future: Ayurveda, Genomics and Epigenetics
Professor, Interdisciplinary School of Health Sciences and Director, Center for Integrative and Complementary Health Savitribai Phule Pune University.

Vaidyaraj Sunil B. Patil, India
Ideal Panchakarma Center, Charaka’s view
Founder and president of Vanoushadhi Vidhyapeeth, Kol-hapur, India. Editor of Vanoushadhi Magazine and author of eight books on Ayurveda. Received numerous national and international awards.

Hari Sharma, MD, DABIHM, FACN, DABP, FCAP, FRCP
Ayurveda – How Purusha (Consciousness) and Prakriti (Nature) Manage Cellular Physiology
Professor Emeritus, former Director Cancer Prevention and Natural Products Research, Ohio State University, published over 150 research papers, written five books, lectured worldwide at medical institutions and conferences.

Enjoy On-Going Knowledge & On-Going Support

Become an Affiliate of the International Maharishi AyurVeda Foundation Receive Valuable Benefits All Year Long:

Whether you are a professional in Maharishi AyurVeda, Maharishi Aroma Therapy, Maharishi Light Therapy with Gems, Maharishi Yoga Asana or Maharishi PanchaKarma, IMAVF was created to serve all your needs.

As an IMAVF Affiliate you are fulfilling Maharishi’s desire to bring all the professions of Maharishi AyurVeda together into one family.

As an IMAVF Affiliate you are entitled to a wide range of benefits and cost reductions on courses, webinars and conferences:

**KNOWLEDGE BENEFITS**

- Free subscription to our regular bi-monthly newsletter and regular news bulletins – keep up with all the inspiring news about Maharishi AyurVeda from around the world, and in all the disciplines.
- Access to Affiliate-Only downloads, recorded webinars and presentations.
- Access to our online Professional Forums in the departments of Maharishi AyurVeda. Post your questions, receive answers by the experts, share your experience and tips of your practice.

**SAVINGS ON COURSES, WEBINARS & CONFERENCES**

- **Save £ 110 on International Ayurveda Congress Fee:**
  Only £ 345 instead of the regular rate of £ 455.
- 10% reduction on course instruction fees on all health-related MERU courses.
  (This 10% discount is valid for course fees, not meals or lodging costs – not valid with other offers.)
- 50% reduction on advanced webinars
- 10% course fee reduction on future International Ayurveda Congresses)
- 10% savings on MLG cosmetics

**PROFESSIONAL SUPPORT & COMMUNITY**

- You will be able to announce your local or regional Maharishi AyurVeda health related events in our online events calendar.
- You will receive a Affiliate certificate plaque to display in your practice and an Affiliate ID card for your future course discounts.
- Share your news and research results with the extended community of Maharishi AyurVeda professionals worldwide.

Affiliate membership in the IMAVF gives you all these benefits for only 80 Euro per year. 

Click here to enroll.

(40 Euro for professionals from underdeveloped countries, MERU staff and Mother Divine.)

If you are not a Maharishi AyurVeda professional, you may join the IMAVF as a Supporter for only 80,- € (40,- € from underdeveloped countries.)

Click here to enroll.

Three Special Events

Classical Indian Music – MERU Concert
Saturday Evening 1 April, 8 pm. Free to all Congress Attendees · £15 for General Public
Information and Ticketing: www.maharishifoundation.org.uk/web/av-congress/

We proudly present these captivating musicians who will perform for us at the International Ayurveda Congress.

Ankita Joshi, vocalist
Disciple of Pandit Jasraj – one of the most revered maestros of India. Ankita is one of the most viewed artists on the „MERU concerts" YouTube channel. Accompanied by: Rekesh Chauhan, harmonium Shabaz Hussain, tabla
https://www.youtube.com/watch?v=ymBc8iSAOGQ

Roopa Panesar, sitar
Considered one of the finest sitar players to emerge on the Indian music scene in the UK. She has been receiving accolades from audiences and peers alike for her entrancing quality of her music.

Ayurveda for Everyone – Health Fair
Ayurvedic Products & Services

Discover the products, tools and services to apply Ayurveda in your daily life.
Providers of quality Ayurvedic products and services will display and present their specialties at the Health Fair. You can sample products and get all your questions answered.
Hours:
Sat. April 1 & Sun. April 2: 9 am to 5 pm

Nighttime River Cruise on the Thames
Sunday Evening 2 April, 8 pm.

Free to all Congress Attendees

Discover London’s main riverside attractions by boat with a 90-minute Thames River cruise. You’ll witness the city’s great contrasts lit with dramatic nighttime illumination as you cruise past historic sites such as Big Ben, St. Paul’s Cathedral and the Tower of London, and contemporary landmarks like the Tate Modern, the sleek Millennium Bridge, and Greenwich – all cloaked in drama and romance.
Message from Dr. Tony Nader, MD, MARR, Patron of the Congress

Consciousness – The Foundation of Health, Happiness, and Long Life

“It is very fortunate that in this scientific age Maharishi Mahesh Yogi has brought to light the complete knowledge of integration of Life on every level and particularly in the field of health. Ayurveda is one of the 40 aspects of Veda and Vedic literature and the understanding of health in Ayurveda goes beyond just the absence of disease -- it goes to the value of creating an enlightened individual, an individual who can live life in perfection, can live life in happiness and health and well-being at all levels not only on the physical level but also on the mental and social level.”

“Maharishi’s genius is that he has seen that the actual dynamics of the inner values of life, which means the actual dynamics of consciousness, how consciousness works, and that is also how the body works.”

“So this discovery of the Veda in human physiology shows there is a one-to-one correspondence between the physical structure of how many divisions and subdivisions are in the Veda, with how many divisions and subdivisions are in the physical body. What it really shows is that the material value of life is based on the non-material dynamics of pure being, of pure awareness.”

“I like to congratulate all the organizers for putting together this Congress and I look forward to being there with all of you and be able to offer to the world a perfect science of health and wholeness.”

View Dr. Nader’s Video Invitation to the Congress

Presentations on the Full Range of Ayurveda

Over 80 presentations will provide a comprehensive view of the “state of the art” of Ayurveda as it is applied in many different fields, with a special emphasis on the benefits of Ayurveda for Public Health.

Each day of the Congress will feature plenary sessions in the morning: see next page for summaries of many of these presentations. Parallel sessions will be held during the afternoon in these six different areas:

1. Brain Health
2. Cardiovascular Disease
3. Youthfulness and Longevity – Genetics and Epigenetics
4. Skin Health
5. Women’s Health
6. Nutrition, Digestion and Lifestyle

You can view a full schedule and list of speakers at: [www.internationalayurvedacongress.com/schedule2017/](http://www.internationalayurvedacongress.com/schedule2017/)
Here is a sampling of a few of the many topics that will be addressed in the Plenary Sessions:

**Scientific Research on Traditional Ayurvedic Treatments**

**A Simple Ama Pachana Treatment – Practical Application, Clinical Results and Evaluation Through HRV (Heart Rate Variability) Measurement**

Dr. med. Wolfgang Schachinger, Austria  
President European Ayurveda Medical Association (EURAMA); Board German Ayurveda Association; Medical Director Maharishi AyurVeda Health Centre, Ried, Austria

This presentation reports on the success of a simple, easy-to-apply seven-day Ama Pachana Treatment for the removal of toxic undigested material. Ama Panchana and Agni Deepana (strengthening of digestive power) are important pillars of traditional ayurvedic treatment. This treatment consists of herbal compounds, spices, and easy to follow dietary and lifestyle recommendations. Clinical cases show that this treatment can be an effective start for a successful ayurvedic therapy. In the analysis through HRV (heart rate variability) measurement, signs of higher orderliness and autonomic stability could be found at the end of this seven-day treatment. https://youtu.be/-q2RUarxKJM

**Ayurveda Bio-inorganicals – Promising New Genre of Medicine**

Asmita Wele, MD (Ayurveda pharmacology), India

This presentation explores the application of bio-inorganicals in the branch of Ayurveda called Rasashastra; these metal-mineral medicines include 80 inorganic elements which are treated with organic substances to convert them into potent medicines. Unlike modern metal-ions these bio-inorganicals are not in ionic form. Bhasmas are the most well-known, and excluding the so-called heavy metal bhasmas Rasashastra gives an account of about 30-35 bhasmas having varied therapeutic actions. Bhasmas prepared from sea shells are not used as calcium supplements but each of the shells is indicated for a different disease. For instance, conch shell bhasma is administered in ophthalmic conditions whereas cowrie bhasma is used in ulcerative colitis. Such ayurvedic bio-inorganicals have applications far beyond mere mineral supplementation, and show promise for a wide variety of therapeutic benefits.

**Ayurveda, Genomics and Epigenetics**

**Integrative Approaches For The Future: Ayurveda, Genomics and Epigenetics**

Prof. Bhushan Patwardhan, PhD, FAMS, India  
President of All India Ayurvedic Congress and a recipient of Government of India’s civilian awards ‘Padma Shri’ and ‘Padma Bhushan’ for distinguished service of a high order for his contribution in the field of Ayurveda.

Today modern science is moving in the direction of systems biology, artificial intelligence and complexity theories, where importance of holistic approaches is recognized. Advances in molecular biology and omics technologies are shaping current understanding of biomedicine, yet the promise of personalized medicine has not materialized. With emerging science of epigenetics, scientists are now realizing avenues beyond genetics. In such a situation, basic principles like loka, purusha, mahabhuta, dosha, rasa, guna, agni and prakriti have become more relevant. Ayurveda has a person-centered approach where each individual requires personalized diet, lifestyle, and therapeutics. An emerging field of research field known as Ayugenomics is now showing new ways to expedite the progress of personalized health and integrative medicine of the future.
Insights into Consciousness and Physiology

**Maharishi Vedic Medicine is Ultra-Modern, Cutting-Edge Medicine — Unified Field Based Medicine**

**John Hagelin (PhD Harvard), USA**

President, Maharishi University of Management, renowned quantum physicist, Director of the Institute of Science, Technology and Public Policy at MUM, and President of the Global Union of Scientists for Peace.

Recent breakthroughs in our scientific understanding of the Universe from string theory and M-theory present Ayurvedic medicine in a completely new light. They reveal that Ayurvedic medicine is unified field based medicine — the direct application to human health of the deepest principles of nature’s functioning, which are the deepest laws of nature governing subatomic scales.

This presentation explores how the three doshas directly correlate to the three superfields of supersymmetric quantum field theory; the pancha mahabhutas to the five quantum-mechanical spin-types; and the Atma (Self), which is fundamental to Ayurveda, correlates to the “unified field” or superstring field. This new understanding from modern physics reveals that Ayurvedic medicine is more fundamental—and thus potentially more powerful—than contemporary pharmacological medicine. It also explains why Ayurveda, being unified field based medicine, is truly holistic—and hence naturally free of adverse side effects, in comparison to more superficial and fragmented allopathic approaches.

Ayurveda – How Purusha (Consciousness) and Prakriti (Nature) Manage Cellular Physiology

**Hari Sharma, MD, DABIHM, FACN, DABP, FCAP, FRCPC, USA**

Professor Emeritus, former Director Cancer Prevention and Natural Products Research, Ohio State University, published over 150 research papers, written five books, lectured worldwide at medical institutions and conferences.

What are the roles of Purusha (Consciousness) and Prakriti (Nature) in managing cellular physiology? This presentation explores how the activities of the human constitution affect cellular function – as you sow, so shall you reap – this is the theory of karma in action in cellular activities. It will also review how individualized life force functions in cells and how its activation on the cellular level affects health. Lastly, it explores how Ayurveda can manage both the genetic code and phenotype in maintaining optimal health. [www.youtu.be/nu2edfmZj44](http://www.youtu.be/nu2edfmZj44)

Drivers of Development to Optimize Brain Maturation

**Frederick Travis, PhD, USA, Professor of Maharishi Vedic Science, Chair of the Department of Maharishi Vedic Science, Dean of the Graduate School, and Director of the Center for Brain, Consciousness, and Cognition, Maharishi University of Management, USA.**

Age-appropriate experiences are the drivers that enhance brain and cognitive development throughout the lifespan. We explore how a nurturing caregiver is the driver in the first years of life; how language learning is the driver from three to ten years; and how problem solving is the driver in the teenage years. In the adult years we posit that the experience of transcending is a requirement for higher human development, and that Transcendental Meditation provides the optimal technique to achieve this.
Ayurveda for Psychological Health

Ayurveda for Cognition and Behavioural Disorders
Dr. med. Prof. Gunvant Yeola, M.D. (Ayu), Ph.D, India
(Kayachikitsa) Professor and Head, Department of Kayachikitsa, Dr. D. Y. Patil College of Ayurved and Research Center, Pune, Director – International Academy of Ayurved (IAA)

Psychological diseases are characterized by memory loss, unusual behavior, personality changes, and a decline in cognitive function. Several scientific studies have described the use of various Ayurvedic medicinal plants viz. Ashwagandha (Withania somnifera), Turmeric (Curcuma longa), Brahmi (Bacopa monnieri), Shankhpushpi (Convolvulus pluricaulis), Jyotishmati (Celastrus paniculatus), Jatamansi (Nardostachys jatamansi) and their constituents for treatment of psychological diseases.

Ayurveda offers a variety of delivery protocols: Nasya is a practical, non-invasive, rapid, and simple method of drug delivery; a second, simple method of administration involves application of the medicated oil on the body and massaging the areas with gentle or deep hand strokes. Ayurveda also relies on several trans-cranial oleation (Shirabhyanga) therapies for nervous system disorders that are non-systemic and non-invasive.

Recent research concludes that topical oil application appears to modify both memory/concentration as well as intellectual functions.

Ojas & the Gene Expressions for Longevity

Can Transcendental Meditation Increase Ojas and Reprogram our Genome and Gene Expression for Longevity?
Supaya Wenuganen, PhD, Indonesia
Veda Vyasa award, outstanding research PhD graduate; former Vice Dean for the Faculty of Techno-biology, Atma Jaya University, Jakarta, Indonesia

This study explores the Ojas level and global gene expression level in groups of practitioners the Transcendental Meditation technique (TM) compared to matched non-practitioner control groups. The Ojas level – determined through pulse diagnosis (Nadi Vigyan) – and the Global gene expression profile of about 40,000 genes from blood cells was measured in groups of young and older TM practitioners matched with controls.

The results showed that the TM subjects in both the young and the older groups had higher levels of Ojas than their respective controls. Global gene expression results suggested that TM can affect global gene expression in a manner consistent with its many clinical and anti-aging benefits documented in previous research. TM appears to down-regulate genes involved in blood coagulation and the stress response, and to up-regulate genes involved in the immune response and genes involved in mechanisms preventing inflammation.

A quantitative analysis of expression of select genes found that AHSP and CXCL10 genes may be biomarkers for a TM effect, and two other genes (ITGB5 and SOCS3) appeared to be biomarkers for a TM-induced anti-aging effect. Finally, we found that expression of two genes correlates with Ojas level.

These findings suggest the TM program can influence Ojas level and can reprogram gene expression to create major benefits for maintaining good health into old age.
Ayurveda for Everyone – Public Lectures

Ayurveda for Everyone – Health Fair Talks Open to the Public
at the International Ayurveda Congress in London 1 - 2 April

Introduction to Ayurveda’s success in preventing and treating major modern health problems

In addition to the extensive knowledge program for Ayurveda professionals at the full Congress, anyone interested in Ayurveda can now attend two days of Ayurveda for Everyone special public lectures on April 1 and 2.

The public lectures will feature presentations geared to a general audience – you can attend as many as you like on each day. These are ideal for students and supporters of Ayurveda and are a perfect way to strengthen your understanding of the theories and many practical applications of Ayurveda for improving all areas of health.

Fees are as follows for Public Lectures: One whole day (7 lectures): £25 pre-registration or £30 at the door
Two days (14 lectures): £40 pre-registration or £45 at the door
Register here: www.maharishifoundation.org.uk/web/av-congress/home
